550 copies and one price for 600 copies.

Response: Yes. The estimated cost of one (1) yearbook is best listed as a range ($5-$6 per yearbook). The total estimated printing cost would be the estimated range of one (1) yearbook multiplied by the estimated press run of 550-600 yearbooks (i.e. $5,750-$6,900).

color yearbook. I would assume full color yearbook means that all pages will be in color. Do you want a price for just 5 signatures in color and the rest black and white? Need some clarification there.
